

In his song “RT” Mike Watts argues that the modern day use of social media is having a negative impact on romantic relationships. He expresses this idea through appealing to the audience’s emotional side, establishing his credibility, and by making logical points.

RT –

(CRZY & NSNE)

RT RT I feel the same way
Not you it's me cause that's what you say
I'm on my knees but baby don't stay
Here anymore

RT RT I see how you think
And I think I need a new drink
RT so fast so baby don't blink
I'm out the door

(NSNE)

I can't believe it that you left me feeling so
alive
You floored the throttle on my heart straight
into overdrive
I couldn't swerve you fast enough to save my
troubled mind
Left waiting on the line

I just hope that you can find some peace so deep
in hell
20 months ago you pulled me in under your
spell
Loved you but you took advantage of me and my
wealth
I'll focus on myself

Your life your choice, not locked in
Twitter fingers turned into voice boxing
Fists get clenched when you leak my sins
Leave scorched earth underneath my timbs

Internet jason, Meyers, Kruger
Taking down accounts don't test this luger
Get a new life I'll get the movers
You remind me too much of a hoover

Girl you suck you sick you a fish
If you gonna mention my name better tag it
If your best friend on twitter imma bag it
Retweet revenge that's a habit

Only got a hundred 40
Tryna pull a hundred shortys
Just know that I'm on your side
Not really tryna get reported

(CRZY)

Can't sleep can't sleep
Know you feel the same way
Got back on my feet but walking the wrong
way
Subtweets subtweets
Ion care what you think
Not anymore
Always thought my girl had my back
Winter move cold like that
12 winter jackets in the raq
Tryna see the city get it back
All we had to do is let it go
But u always had me saying no
Laughed when I told ya I could rap

Now u always try to hit me back
Red phone straight ignore

Hell got a circle just for you
Steady throw the oo-op for the crew
Always say you drank too much
Call my phone neva giving up
Think I give a heck
I keep my twitter on tuck
Yaint even seen wild yet
I think I need a new drink
Don't @ me what did u think
I do not scroll through yo stuff
yo opinions ya bish
I think ya thoughts for the birds
Fuck any headline ya heard
Imma just shine on the gram
Curve u in front of your mans
Froggy best leap if he can
Squad be some dangerous men
Savage be gunning ya friends
I'm just saying
We never played in the minors
DM shots all fire
All my shit gets admired... like
